Project Design Phase-I

Solution Architecture

Date	20 October 2022
Team ID	PNT2022TMID26095
Project Name	Smart Waste Management for Metropolitan Cities
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture: A complicated with numerous sub-processes, – solution architecture connects technological remedy to business issue. Its objectives are to

• Find the best tech solution to solve existing business problems.

• Explain to project stakeholders the structure, traits, behaviour, and other features of the software.

• Specify the project's features, development stages, and solution needs.

 • Offer the requirements by which the solution is created, handled, and given to the clients.
